Universal Remote Control, Inc

www.universalremote.com

OCE-0082B REV 25 (02/20/18)

This remote control is designed to operate most IPTV and DTA STBs as well as Digital and Analog Cable Boxes.

2 Replacing Batteries

Before you program or operate the remote control, you must install two new AAA alkaline batteries.

(STEP1) Remove the battery compartment cover from the back of your remote control.

(STEP2) Check battery polarity carefully, and install the batteries as shown in the illustration below.

(STEP3) Replace the battery compartment cover.

trol (i.e. volume, mute, etc.) to Quick Number | Manufacturer/Brand ensure you have the correct code. If any of the functions do not operate as they should. repeat the instructions from STEP 3 above using the next three digit code number from

the brand list.

(STEP4) Store the three-digit code by pressing the same [DEVICE] button once again. The device LED will blink twice to confirm that the code has been stored.

C. Manual Programming D. Auto Search Method The remote control can be programmed

y entering a three-digit code number If none of the three digit code numbers hat corresponds to particular brands assigned to your brand of equipment works. or the code table does not list your brand. you can use the Auto Search Method to code tables sections of this instruction find the correct three-digit code number for your equipment by following steps:

> (STEP1) Turn on the equipment that you want the remote control to operate (Cable Box, TV or DVD).

> (STEP2) Press the [DEVICE] button and the [OK/SEL] button simultaneously for three seconds. The device LED will turn on indicating that it is ready to be programmed. The LED will remain on for 30 seconds. The next step must be entered while the LED is on.

> STEP3) Press the [CH▲] or [CH▼] button one at a time or keep it pressed. The remote will emit a series of Power ON/OFF code signals. Release the [CH ▲] or [CH ▼] button as soon as the equipment turns off.

*Note: You can verify that you have selected the correct code by pressing the [POWER] button. The equipment should turn back on. Then try all of the functions on the remote control (i.e. volume, mute, etc.) to ensure you have the correct

code. If any of the functions do not operate as they should. repeat the instructions from STEP 3 above to continue the Auto Search Method.

(STEP4) Press the same [DEVICE] button to store the code. The Device LED will blink twice to confirm that the code has been stored.

E. To find the Three-Digit Code that Was Programmed using the Auto Search Method

STEP1) Press the appropriate [DEVICE] button and the [OK/SEL] button simultaneously for three seconds The device LED will turn on for 30 seconds. The next step must be performed while the LED is on.

(STEP2) Press the [INFO] button. The device LED will blink a number of times indicating the number of each digit for the code. Each digit is separated by a one second interval of the LED being off.

Example: One blink, then three blinks, then eight blinks indicates the code number 138.

*Note: Ten blinks indicates the number 0.

F. Programming a Second TV to the DVD Button

(STEP2) Press the [TV] button.

from the TV codes table.

(STEP4) Store the three-digit code by pressing the [DVD] button.

The device LED will blink twice to confirm that the code has been stored.

G. The Learning Method

(STEP1) Press the [Device] button (CBL, TV or DVD) to be programmed and the [INPUT] buttons simultaneously for 3 seconds until the Device LED light turns on.

Line up the UR3L-SR4 to the other remote, head-to-head, 1 or 2 inches apart.

(STEP3) Press any button on the UR3L-SR4 that you want to teach a command to. For example, if vou want to teach the [MUTE] button, press the [MUTE] button.

(STEP4) Press and hold the [MUTE] button on the other remote until the UR3L-SR4 Device LED light blinks twice.

Note: The LED will blink 5 times if there

(STEP5) Once you have completed

save the learned commands

by pressing the [Device] and

[INPUT] buttons simultane-

ously until the Device LED

blinks 3 times. Now test all the

buttons to make sure they

was an error in the learning process. In so, repeat STEPS 3 and 4. Continue learning other buttons by repeating STEPS 3 and 4.

(STEP1) Press the [DVD] button and the [OK/SEL] button simultaneously for 3 seconds. The DVD LED will turn on for 30 seconds. The next step must be performed while the LED is on.

(STEP3) Point the remote control toward the TV and enter the three-digit code for your TV

want to erase for 3 seconds. The Device LED will blink

[Device] and [INPUT] buttons simultaneously until the Device LED blinks 3 times.

Erasing All Learned Commands from One Device

(STEP1) Press the [DEVICE] and [INPUT] buttons simultaneously for 3 seconds until the Device LED light turns on.

(STEP2) Press and hold both the [DEVICE] button you want to erase and the [PAUSE] button for 5 seconds. The Device LED will blink twice to confirm the erasure.

To exit, press and hold both the [DEVICE] and [INPUT] buttons simultaneously until the Device LED blinks 3 times.

J. Programming the All Off Button

This allows you to program the All Off button so it can send up to three power On/Off commands with one button press.

teaching UR3L-SR4 all desired (STEP1) Press the [CBL] button. commands for that Device,

(STEP2) Press the [All OFF] button and the [OK/SEL] button simultaneously for 3 seconds. The [CBL] button will turn on for 30 seconds.

(STEP3) Press the first [Device] button vou want to store in the [ALL OFF] button and then the [POWER] button. Repeat this for other Device until vou have stored all the desired power commands into the [ALL OFF] button.

(STEP4) Press the [CH ▲] button to save the power commands you stored. The [CBL] button will blink twice to confirm the Device have been saved.

K. Programming for Advanced Functions.

If your remote model has customprogrammable Macro buttons available. they can be programmed to act as a 'Macro' or Favorite Channel button in CABLE mode. This allows you to program up to five 2-digit channels, four 3-digit channels or three 4-digit channels that can be accessed With one button press

*Note: The FAV button is not programmable if you have a Digital Cable Box made by Pace, Pioneer or CISCO/SA.

(STEP1) Press the [CBL] button to select the CBL mode.

(STEP2) Press the [MACR0] button and [OK/SEL] button simultaneously for 3 seconds. The [CBL] button will turn on for 30 seconds.

(STEP3) Enter the the 2, 3 or 4-digit

code for the channel you want programmed first (for example, 007) using the Number Pad, then press the [STOP] button. Then enter the code for the next channel (for example 050), then press the [STOP] button. Repeat this process for

the third channel. The [CBL] button will blink once for each

> (STEP4) Press the [CH▲] button to store the channels that were selected. The [CBL] button will blink twice to confirm the storage of commands.

channel entered.

To access the programmed channels, press the [MACRO] button once. This will bring up the first channel. Press once again and it will bring up the second channel. Press again and it will bring up the third channel.

To erase the Macro programming and return to the original function:

(STEP1) Press the [CBL] button to

select the CABLE mode.

(STEP2) Press a [MACRO] button and the [OK/SEL] button simultaneously for 3 seconds. The CBL device LED will turn on for 30 seconds The next step must be performed while the LED is on.

(STEP3) Press the [CH ▲] button to erase the functions stored in the button. The CBL device LED will blink twice to confirm that the memory button has been erased.

L. Programming Volume Control

Volume and Mute control are factory programmed to automatically transfe to the respective Device mode you select, as follows:

CBL:TV TV:TV DVD:TV

If you wish to store the Cable volume control in CBL mode, use the following steps

> (STEP1) Press the [OK/SEL] button and [CBL] button simultaneously for three seconds. The device LED will turn on for 30 seconds. The next step must be performed while the LED is on.

Press the [VOL] buttor The device LED will blink.

(STEP3) Press [CBL] button. The device LED will blink twice to confirm the programming

Note: To return CBL device to TV volume repeat steps above replacing [CBL] with [TV] in Step 3.

M. Programming Channel Contro

Channel controls are factory-programme to automatically transfer to the respective Device mode you select as follows:

H. Erasing a Single Learned Command

learned correctly.

(STEP1) Press the [Device] and [INPUT] buttons simultaneously for 3 seconds until the Device LED light turns on.

(STEP2) Press and hold the button you

twice to confirm the erasure. (STEP3) To exit, press and hold both the CBL:CBL TV:CBL DVD:DVD

If you wish to store the TV channel controls in TV mode, use the following

STEP1 Press the [OK/SEL] button and [TV] button simultaneously for three seconds. The device LED will turn on for 30 seconds. The next step must be performed while the LED is on.

device LED will blink. (STEP3) Press [TV] button. The device LED will blink twice to confirm

Note: To return TV device to CBL channel repeat steps above replacing [TV] with [CBL] in Step 3.

the programming.

N. Low Battery Warning

When the battery is low (2.3V-2.0V) and needs to be replaced with fresh batteries, device LED will blink 2 times in sequence whenever a [DEVICE] button is pressed to turn on equipment.

O. Memory Lock System.

This remote control is designed to retain programmed memory for 10 years — even after batteries are removed from the remote control.
